PROFESSIONAL EXPERIENCE

Intern – Full Stack Development

Collaborating on live web projects using Django and Angular frameworks. Involved in backend API development and frontend module integration. Focused on building scalable and user-friendly web applications using modern technologies.

TECHNICAL SKILLS

Programming: Python, Java, JavaScript, PHP, C, HTML, CSS, Bootstrap

Frameworks: Django, Angular, Flutter

Data Visualization: Power BI

Databases: MySQL, SQLite, PostgreSQL

Version Control: Git, GitHub, GitLab

Other: REST API Integration, Digital Marketing

PROJECTS

Hotel Management System

Developed a hotel booking and management web application. Implemented room booking, payment simulation, and invoice generation features. Integrated role-based login for administrators and users. Created a custom dashboard to manage rooms, staff, and transactions. Built using Python, Django, HTML, CSS, JavaScript, and MySQL.

Digital Finance Management System

Designed a web-based financial management platform for automating operations such as member registration, payment tracking, and reporting. Implemented real-time dashboards and automated calculations to ensure transparency and accuracy in financial data handling.

IoT Energy Monitoring System

Created an IoT-based monitoring system using the ESP32 microcontroller to control and analyze energy usage remotely. Integrated various sensors for data collection and visualization through a web interface. Focused on reliability and ease of monitoring through real-time updates.

EDUCATION

Bachelor of Computer Science – 2022 – 2025

College of Applied Science, Munduparamba (Affiliated to State University). Coursework included Data Structures, Web Technologies, Database Systems, and IoT Development.

COURSES & CERTIFICATIONS

Full Stack Development — TechnoDot Academy (2025)

Cloud Computing — Febno Technology

Artificial Intelligence — IHRD Institution
